In order to ensure the long-term safe and stable operation of the Group’s Fudao Phase II urea plant located in Dongfang City, Hainan Province of the PRC (“**Fudao Phase II**”) and taking into consideration of the whole set of maintenance plan of Fudao Phase II, the Company started to replace the high pressure carbamate pool condenser of Fudao Phase II on 23 August 2017, which would result in a suspension of operation of Fudao Phase II for approximately 30 days.
